Republican State Convention.

A Republican State Convention will be held at the y of Madison, in the Assembly Hall of the Capitol, on Wednesday, the 31st day of August next, 2:12 o'clock M., for the purpose of nominating candidates for State officers to be supported by the party at the uing general election; and to transact any other iness that may properly come before it.

As the subject of selecting delegates to the next National Convention may be entertained and acted on by the Convention, it is suggested that the people in their primary caucuses, and the district conventions make such expression as will intimate to their delegates and the State Convention, the general sentiment of the State

on that subject.

Each Assembly District will be emidded to two delegates in the Convention,
It is recommended that District Convertions for the selection of delegates be held throughout the State, of er before the 25th day of August, and that committees make early calls for that purpose; and it is especially urged that every district be duly represented in the

Important to Tax-Payers,

A suit of very great importance to our city and especially to Tax-payers, is now pending before Judge McArthur, of this Circuit.

It grows out of a claim for damages, set up by Capt. Jones, of Bufalo, whose ship-yard and new Harbors, has been materially injured and new Harbors, has been materially injured by the encreachments of the Lake. It is as sumed that the building of the Straight Cut Harbor caused these encroachments, and upon this ground Capt. Jones bringssuit against that the building of the Straight Cut Harbor caused these encroachments, and upon this ground Capt. Jones bringssuit against that the city. Of course, it his claim is a good one, so is that of every properly-owner, all one that the request of the Lake and the country will again have a rally, and higher that the verbalism report. It was allowed the senter of the Lake was a good one, so is that of every properly-owner, all post to growers.

In portant to Tax-Payers,

A suit of very great importance to our city and especies certain propects, leading to the hope that this country will again have a surplus for export, as in former years.

The foreign markets have done some daming and the hope that may rain allow a continued calm, with grown a surplus and surplus as in former years.

The foreign markets have dending the hope that may surplus a country will again have a surplus for export, as in former years.

The foreign markets have a surplus Spain have a surplus for the hope that this showers in Spain lave a continued calm, with prices rather easier. New York advices and the hope that this showers in Spain allow the hope that the prospects in Narial Rev. II. In Tablery, in Carding and the prospects of the Mexicous and the Postival Arthur one, so is that of every property-owner, all harvest, there may yet be a rally, and higher fered abrasion from the waters of Michigan, and who can find witnesses to swear that said abrasion was caused by the Straight Cut.—But the United States, as well as the city of Milwäukee, should be made a party to these suits; since Congress appropriated and U.S. officers expended, a considerable sum of money towards the construction of the New Harbor. And as Uncle Sam is in much better the Milwäukee in the Milwäukee in the Congress appropriated and S. S. The London averages were 54s per qr. on 1,559 qrs. The arrivals into the principal ports of Great Britein in wheat and flour for the week ending 1st June were equal to 79, 256 qrs. along the Lake shore, whose lots have suf. quotations.

The arrivals off the coast since the 3d have condition for bleeding, just now, than the 956 qrs. citizens of Milwankee, we suggest to those property-owners, who think they have been damaged by the Straight Cut, that they present their little bills to the Federal, instead of the City Treasury.

If the suit in question goes in favor Cant. Joses, no doubt it will form a precedent which others will be prompt to follow; and damages to the amount of hundreds of thousands of dollars may be recovered against the city. In view of this possibility, it seems rather strange that so tew of our citizens take interest enough in the matter to even attend Court during the trial,

Letter from Bishop Janes on the Recent Troubles in Texas.

Bishop Janes publishes a letter in the Christian Advocate of this week, in which he gives a detailed account of the recent breaking up of the Conference by mob violence in Texas. From this letter we take the following extracts:

WHAT WAS THE MOTIVE OF THE MOD?

What was the real motive? The answer is found in their own declarations. Judge Holerts sait, "They differed with the Methodist Episcopal Church, South, anly on the should be just as good as they, if we agreed with them on that question. Mr. De Lishe said he "helbered those in our midst to but spices and forerunners of the invading army of Abolitionism." General Green said that the organization known as the Northern Methodist Church "was gradually increasing in strength by accessions of members and breachers from the Northern States, and was becoming so strong as to endanger the security of our slave property." Han, R. H. Tay, lor said he "ladd become satisfied as to the fact of their being pilots—men sent to blaze the way for the hests of Abolitionists that were to follow." The Rev. In my judgment leading members of that Church were the principal instigators. A local minister of that Church was present, and actively concerned in the proceedings of the meeting on Saturday. The leader and spokesman of the nob on Sunday said in his speech; "We are of the Church, South," by which I understeed him to be a member of the Church South. I also carned from other persons that he was a member of from other persons that he was a member of that Church. In the meeting on Monday an-other local minister of that Church was present and made a speech.

The British Corn Trade,

The corn generally has continued to progress favorably, with the exception of winter beans, which in with the exception of winter beans, which in several places have been so injured with black fly as to be only lit for pluwing in.—Wheat in the main looks well, but some pieces are much laid, and there are fears that the great bulk of straw will lessen the yield of corn, and render it more liable to injury from the weather. The midiand counties have commenced hay-making with wet weather; it would appear that, though the grass has grown very rapidly, the rain came too late to make a heavy crop, and much is now in jeopardy. In Northern Europe reports continue favorable. In France the heavy rains and storms have done some damago to the fields in ear; but the showers in

New York, June 25, 1859. BRAYERY OF THE ZOUAVES AT MAGENTA -One of the officers of the Zonaves writes from the field of battle as follows:

Unfortunately we were too early in the ac-

tion. The guard had to sustain for two hours the whole shock of the Austrian army, before the other corps could arrive. In that time we suffered fearfully. We went into action 1,000 Zouaves, and at the end of the battle we had but 100 men on their feet.

The officer said he had a layonet thrust in the calf of his leg, which upset him, and he was taken prisoner, but two of his corporals dragged him from the Austrians. They fought in an extensive vineyard. When the enemy at last retreated, litteen of his Zouaves followed after six hundred retiring Austrians and bayoneted a considerable number of them.

A SAD Case. Little Don will be badly affected, Whate'er his political lot; He'll remain S. A. D. if elected, And be S. A. D if he's not!

published effort with the verbalim report. there is ample occasion to felicitate ourselves on having a reporter not dependent, on the atter exertions of a speaker for an elaborated report. As we go to press, Mr. Burbler informs us that T. W. Brown, after writing out the address for the Wisconsin exacted a promise from Potter that proof sheet; of it should be sent to the Sentinel office. The enterprising genius of the Wisconsin did not keep that promise, but made a huge splutter in last evening's paper, over his publication of the address. We have only to say that the publication in that paper is not correct, as those who were present Thursday evening will testify. In conclusion, if the Locale of that sheet wishes to raise an issue of reporting facilities, the humble individual of this jour. nal will meet him, armed only with a lead pencil, at any speech, sermon, or oration, and f necessary, furnish a verbatim report of subject delivered, before said old woman gets her spees fairly wiped.

We can only regret that the pressure on our columns forbids us publishing the excelent address of T. W. Brown—as delivered, f only to show the difference existing beween that and the Wisconsin's re-version.

LATEST NEWS!

Particulars of the Wreek of the Argo.

St. Johns, N. P., July 1—9 P. M.

All of the passengers who were on board
the steamship Argo, which was wreeked in
Treppassy Bay a few days since, have arrived
here safely. The steam tugs left again today to bring up the orew and what was saved
from the wreek.

The following are the particulars of the
disaster: isaster: Between three and four o'clock on Tues day morning, the Argo made Cape Pine, bearing twelve miles distant from the coast. The pitot, captain, crew and all the officers, were called on the deck at the sight of land. The course was changed and made S. E. by E. This should have cleared her fifteen miles from Cape Race.

The course was changed and made S. E. by E. This should have cleared her fifteen miles from Cape Race.

About a quarter past four o'clock a very dense fog came up. At half past four the Captain spoke a fishing schooner. He stopped the engines and reversed them. Hailing the schooner he asked: Where are you fishing? Answer—On the eastern side of Trepassey Bay, a mile and a half or two miles off. The captain then ordered the helm to be put hard a port, the engine to go at full speed, and the vessel to be kept S. E. by the standard compass. This should have taken her clear off the land. The captain and all officers were on deck: the engineer at the whiel gave the order to steady, as the ship was brought up to her S. S. E. course. At that moment breakers were saan, and the engines were stopped and reversed at full speed. Before the ship got sternway upon her she grounded her how at Fresh Water Point, S miles from Trepassey.

om Trepassey.
The boats were lowered and got ready, when the pessengers embarked, with but little confusion; the women and children being cared the stern, and the deck freight thrown overpoard: the forward boilers thrown off, and every exertion made to get her off, but with

every exertion made to get her off, but without avail. The captain now sent the pilot
to Trepassey to get assistance, when the steamers Dauntless and Blue Jacket were dispatched immediately. Sails, etc., were sent
ashore, and tents made to protect the passengers, and when the provisions and luggage
could be got at, they were also sent.

The shermen then plundered the ship.—
A hundred came around her on hearing the
signal guns. They cut away her masts and
completely skinned her. At 4 P M, the
ship filled, and fell on her beam ends, and
sank in six fathoms of water. The baggage
belonging to many of the passengers was lost.
There was no house within eight miles of the
shore where she struck. At 5 P, M, a boat
returned from Trepassey, with the assurance
that two steamers were on the way from St.
John's to assist them.

Thesalay night was passed in toute with a on s to assist them.

John's to assist them.

The sday night was passed in tents, with a tolerable degree of comfort. On Wednesday the steamers arrived and brought off the passengers and a part of the baggage. They return this P. M. for the crew, taking with them soldiers and police officers to recover what portion of the property had been stolen from the ship. They can get divers also to get out anything that can be recovered from the week. The passengers are quartered and provided for here. They will be sent on as soon as arrangements can be made.

Balloon Ascension. St. Louis, July 1—9 P. M. The first graud experimental air voyage to sea-board, took piace from Washington Square this evening. Professors Wise, La Mountain and Gager having made successful scension, in the mammoth balloon Atlantic ascension, it the mammoth balloon Atlantic, at 6:40 ciclock. It was witnessed by thousands of citizens. The outside enclosure was thronged with excited spectators. Wm. Hyde, reporter of the Republican, necompanied the Aeronauts, but should his weight prove an obstruction to the passage of the balloon, he will be landed at some favorable position, and this course will be repeated, if necessary to this course will be repeated, if necessary to the accomplishment of the end in view, until all of the party, excepting one, together with boat, are landed, Wise being determined to reach the Atlantic coast, if such a thing

possible.

Packages containing letters and St. Louis papers and western exchanges sent by U. S. Express which will be forwarded to New York, or to whatever place the eronants alight. They are expected to reach some point on seaboard between 9 and 12 to-morrow. Mr. Brooks, manager of St. Louis Museum, preceded main party a few minutes in this balloon Comet, designing to accompany the Atlantic a short distance and return in the morning, weather favorable. The News and General Cass. Not content with deliberately misrepresenting the doctrines laid down in the letters of Gen. Cass, touching the rights of Adopted Citizens visiting foreign countries, the News, with even more than its customary assurance, charges the Sentinel with falsifying the record in this matter. Of course, the News is perfectly well aware that the charge is wholly without foundation; but something must be done to throw dust in the eyes of Adopted Citizens, and the News resorts to its usual plan of downright lying. The Sentinel is entirely content to rest the case upon Gen. Cass' own letters. Here is the first one, to Mr. LECLERC, of Tennessee:

Mr. Le Clerc, of Tennessee:

If a subject of any of those countries, where all persons are compelled to serve in the army for a certain period, emigrates to this country before having taken histurn as a sold dier, it is perfectly clear that this "duty," or "foldingation" existed against him at the period of his caignation, and according to our Democratic Administration, upon returning to his native country for pleasure, business, or any other purpose, though he may have been thirty years a citizen of the United States, he If a subject of any of those countries, where

THE ATLANTIC TELEGRAPH.—The foreign papers speak of a new attempt making in England, by the Atlantic Telegraph Company, to secure pecuniary means (\$3,000,000) for the prosecution of their work; but the cess of the project, remarking that even with the sanction of the shareholders, the attempt to raise such a sum in the present state of the money market (and in the face of two new companies, each of which, unfettered by debt and without troubling the government, is actually, recognized to lay cheen Atlantic and trouble properties to lay cheen Atlantic and the properties to lay cheen an tually preparing to lay cheap Atlantic cables.) is not likely to be attended with the success which would at all warrant the old week ending the 21st inst., were \$1,620,361, who has been in London for some time past, 051,473; the same time in 1858, \$12,146. is apparently sparing no effort which may 639; same time in 1857, \$22,076,402; same contribute to the success of the undertaking.

Mr. Cass and our Democratic Administration, on the other hand, refuse to interfere in any such case, and notify adopted citizens that their naturalization here does not exempt them from "military service" in the old country! We repeat, therefore, the assertion made in the Sentinel of Thursday, which the News of y-sterday copies and brands as false, and refers our readers, native as well as adopted citizens, to Gen. with Earness this, is, that the Administrationregards naturalized citizens in the same light that the British Government does fugitive slaves from the United States escaping into Canada. So long as they remain within the British Possessions they are sure of protection, but if they imprudently venture io lay foot upon the United States, they run the chance of being deprived of their liberty, and compelled to perform the service it is claimed they one.

The position of our Democratic Administration therefore is that white men escaping to this country from involuntary servitude and becoming citizens are entitled to the protection of our Government only so long as they remain within the confines of our jurisdiction, and that if they go abroad any despot who claims that they owe him labor may exact of them compulsory service, because this "dury" existed at the review, because this is truly a help-ment."

How Carlbaldi Cressed the Ticlua.

Had seen, for about a week, a long article in all the papers bearing the above caption, and beginning with: "The manner in which Garibaldi crossed the Ticino was courious, and may now be divulged without danger." Saw it in ninety-two newspapers and ten supplements; but always when too busy to read so long an article. Laid away from time to time thirty odd papers containing it, so that we might read when we got time, all about "How Garibaldi crossed the Ticino" so curiously—a story which it seemed it was dangerous to divulge prematurely. "How Garibaldi crossed the Ticino and the Ticino and the Ticino and the Ticino are the Ticino and the Ticino and the Ticino are the Ticino are the Ticino are the Ticino and the Ticino are the Ticino and the Ticino are the Ticino and the Ticino are the T DON'T FAIL TO PROCURE MRS It has no equal on earth. R. R. R. LEFT HIS CRUICHES in Mrs. HAYES' SHOP.

A N OLD MAN CAME LIMPING IN A. Mrs. Hayes' Medicine Store, No. 115 Fulton St. He asked for a bottle of Radway's Ready fisher. His insist were on-inf, sowak, and so paintful, that the historesed old man could go no further without bothing his cripploid legs. In a new minutes he felt new fits the first through his whole body; first, as legs left a genial zlow of warmth, then the stiffness disappeared-next, he nelt the muscles and tendors becoming strong—and so viceorous did better, that after a few minutes rubbing with the R. R. R., he arose, stood upon his feet, and walked away, rejoining at the sudden effect-got.

Leaving the faithful crutches in Mrs. Hayes' store, as a pleasing memento to her of the exceedingly happy diffnery of Radway's Ready Betief.

THE SENTINEL.

How Garlbaldi Crossed the Ticina.

of a slipping pleasure at last within the grasp—the calm delight of a consuming curiosity which now a wave of the hand may satisfy.

As the bell at the upper end of the Mar-ket House struck twelve, the sound rolling sotemuty out upon the night wind above the silent and sleeping city, we opened the pa-per, and read the "curious" story of "How Garibaldi crossed the Ticino."

He went over in a ferry boat .- Nashville

An honest old gentleman, in telling us his troubles, gave great prominence to the necessity he was frequently under of disappointing his customers, whose work could not be finished as soon as he had promised. After explaining the difficulty, he looked up with great carnestness, and exclaimed, "O dear, shall we ever be done with this lying?" We have often wondered ourselves whether such a consummation would ever take place.—
"Your boots will be done on Saturday night without fail." Nevertheless, you have to co

And there was silence for the space of ter

minutes. No gourmand was ever more ab-sorbed with his turtle and port than we with our trout and polations. Nor did ever turtle or port fall more delectably upon the palate-

or port fall more delectably upon the palateThere is no sauce like hunger, as there are
few blessings more to be coveted than an appetite and a full larder. We had them all—
plenty and a relish for it.

Tea is a great luxury in the woods—boiled in an open pail and dipped up in a tincup. It is drank profusely at every meal,
and is more longed for after a weary march,
than any other liquid available. No sportsman's kit is properly made up which doesn't
contain a pound of Young flyson; and no camp
meal is perfect without a dish of the soothing
beverage. If he has pork, bread and tea, the

meal is perfect without a firsh of the soothing beverage. If he has pork, bread and tea, the woodsman snaps his fingers at all the miser-able fiesh pots which go to make up the lux-uries of civilization, and whose use generates lassitude, gout, indigestion, and the thousand and one other "ills that fiesh is heir to."

and one other "ills that fiesh is herr to."

Nor are his other wants less simple. He can imagine nothing more luxurious than a compactly knit bark shanty, carpeted with fresh hemlock boughs, and enlivened at night by a blazing hardwood fine in front of it. To him it is a palace; and requires but the experience of a night or two to make the most delicate amateur think with him.

GREELEY AT PIKE'S PEAK.—The following note from Mr. Greeley was addressed to a friend in New York. The Tribunc publishes

it as interesting to his friends. We give it for the fresh bit of description in the last para-

actual wants:

It is wonderful how very few things are really needful to our comfort. Most of our wants are fictions. No one of us ever ate a dinner with greater relish than this that was extemporized over a huge fire in the open air. There were but few dishes—brook and lake trout, potatoes, bread and tea—but they were admirably got up, and our appetites craved them. Our plates were of tin, and our tables and chairs of winterer was convenient. for the sale of Hinois.

Denver Citt, Rocky Mountains, and loss plane 10, 1859.

I am here in the vicinity of the gold diggings, nearly half way across the continent, but not half way through my journey. I have a lame leg, caused by an upset in the express wagon, which has bothered me a good deal, and will keep me here for the next week, but I am going now to devote myself to curing it. Up to this time, I have had no chance; I have been riding almost constantly since my accident, and have spent the last three days climbing the Rocky Mountains, and looking through the new gold diggings, and my conviction is that there is no mistake about it.—There is gold here, but it is harder to get it by digging than almost any other way. A few will make fortunes here, while many will lose all, and go away utterly bankrupt.

But the glorious Rocky Mountains are themselves worth n visit. They are not a range merely, but a chaos of mountains three hundred miles broad, with their forks, their snowy peaks, their grassy hill sides, their ravines, and their glorious forests. Such clean sweet miles on miles of fragrant, softly whispering pines, you never imagined. The air is gloriously pure, the hill-sides dotted with springs, the ravines musical with running streams that never dry up. I wish I had one friend to go through with me; I have hitherto had company; henceforth I suppose I must travel alone. I expect to have to go out to the crossing of the Platte, on the Salt Lake mail route, thence to take the mail wagon to Utah. I hope to be in Salt Luke City on the 4th of July, and in San Francisco about the 1st of August. I mean to leave for home on or about Sept. 1.

NEW YORK MONEY MARKET.

NEW YORK MONEY MARKET.

New York, July 1-7 P. M.

The business in stocks this morning was still more insistence by the holders, intrees undergoing a farther decline. The depression is audin most marked on Rail Road shares, though the better class of securities are net exempt from the dull and heavy feeling observable throughout the market. The heaviest depreciation was on Mich gid and Galena, which have each Edge 12 cent lower. The former is pressed for sale in view of the heavy damages in which the Company is likely to become involved, by the serious accident at Adrian, at time when it is lenst able to pay them.

Clinaro & Rock Island was among the steadiest on the list, being spackage offered at Edg. I. Hinds Central continues to improve, sellimetteday at 1212 cash, and 623, sellenthirty days. There was very little change in Railroad bonds; the state stocks are more recely offered and Missouri and Termeasee since are again lower. The day is a bay Gue in the money market, perhaps more so than at any time of the past year. The banks and private banking houses have quite a lively appearance and a large smoone of motory will change hands before the week closes.

The changing of loan is active, and ug ood demand is observable throughout the market, though it is indiceable than one timener appears in any quarter, and fresh loans are easily effected at 6 per cent. The Saxonia, for Hamburg, took \$100,00 in species on freight. The steamers Ocean Gueen and Kangaroo, for Europe tomorrow, will take in species \$1,30,000.

Wool.—Domestic fivece continues quiet but firm, wid light receipts, sales 40,000 lbs at 37 kg 52 for inferior to Excorp; yalled steady and unchanged, forcing in bet-ter demand; sales 3,000, including East India, at 16c, and Donolal and Mestazz on private terms; also 200 bules California at 166,25.
